

**VIROLOGY (LS 504)**  
 (Prof. Supriya Chakraborty)

S. No	Topic	Teacher	No. of lectures
1.	General perspectives: Origins of virology, viruses as a living system etc.	SC	[2]
2.	Organization of viruses	SC	[1]
3.	Classification of viruses	SC	[1]
4.	Virus attachment and entry in to host cells	SC	[2]
5.	Genome replication and mRNA production by RNA viruses	SC	[2]
6.	Reverse transcription and integration by Retroviruses	SC	[2]
7.	Transcription strategies of viruses	SC	[2]
8.	DNA virus replication strategies	SC	[1]
9.	Translational control of viral gene expression	SC	[2]
10.	Viral pathogenesis and cell transformation by viruses	SC	[2]
11.	Viral vaccines	SC	[2]
12.	Antiviral chemotherapy	SC	[1]
13.	Persistence of viruses	SC	[1]
14.	Hepatitis viruses	SC	[1]
15.	HIV	SC	[1]
16.	Baculovirus	SC	[1]
17.	Viral Evolution	SC	[1]
18.	Emergence of new viruses and Current viral epidemics	SC	[1]
19.	Viral vectors and gene therapy	SC	[2]
